

Forge the future of open source

Benefits of Linux Foundation Membership

“

Our members are among the pioneers of digital innovations from cloud to AI. They serve as a guiding force that fuels the growth of our projects and the creation of new markets and categories.

”

Jim Zemlin, Executive Director of the Linux Foundation

Explore the Benefits

Explore the Benefits

Your membership in The Linux Foundation gives you access to a wide range of **marketing, research, training and event opportunities**. We help align your organization with best practices and enable networking with industry peers for leveraging open source across engineering, supply chain and legal departments.

Our community provides a **diverse and talented pool of experts** and **open source practitioners** when recruiting is a priority. Your contributions and support help the Foundation to provide programs that enable its many hosted open source project communities to thrive.

- **Join the ecosystem** around the key technologies transforming your industry. Your contributions help these communities evolve and thrive.
- **Evolve your open source business strategy**. Collaborate to transform industries, shape markets, lower costs and accelerate innovation.
- **Access services to help your organization thrive**. Provide your organization access to a wide range of open source research, community marketing, training & certification programs, and events.
- **Maximize your investment with LFX**. Access our LFX collaboration portal to track your company's project participation across open source projects. LFX also enables visibility to project security, community trends, CLA management and more.

Attend Our Exclusive Summits

THE **LINUX** FOUNDATION MEMBER SUMMIT

The Linux Foundation Member Summit is *the premier event of the year for our community*. This invitation-only event brings all stakeholders and interests together, both virtually and face-to-face, to learn and collaborate with each other bridging business and technical topics.

The Linux Foundation Legal Summit is a neutral legal forum where leading attorneys from companies leveraging open source solutions can work together to focus on and discuss issues of common interest and concern. The Linux Foundation Legal Summit invites counsel from member companies to attend and collaborate.

We also invite members to join our bi-weekly legal calls, providing expert guidance on open source IP concerns.

Open Source Research

LF Research programs provide access to public and proprietary reports and analysis detailing the latest trends, innovations, and shifts in open source communities.

New research reports are published nearly every month during the year, providing fresh insights on a variety of topics important to the open source community.

LF Research hosts an Advisory Board made up of 8 rotating seats for member firms.*

*Benefit available to only Platinum members

Participate in our Mentorship Programs

ATTRACT MORE PROJECT CONTRIBUTORS

- Find talented new contributors to help grow your most valued LF Projects by hosting a mentorship program.
- Get access to the resources you need to build and manage a successful program through our LFX Mentorship platform.

INVEST IN TALENT DEVELOPMENT

- Expand your recruitment efforts by building a more diverse and talented open source community. By sponsoring mentorship programs you're creating a pool of highly skilled potential candidates.

GIVE BACK TO THE COMMUNITY

- Build relationships, grow your expertise, and help others by becoming a mentor. The Mentorship platform provides you with the resources you need

Strategic Guidance and Expertise

Join the TODO Group Project for Free

Open Source initiatives within organizations face many challenges, such as:

- Educating developers to good open source practices
- Building policies and infrastructure around the open source projects that matters to them
- Ensuring high-quality and frequent releases
- Engaging with developer communities
- Contributing back to other projects effectively

Organizations need some guidance to start and keep advancing in their Open Source Program Office (OSPO) journey.

The members of the TODO Group are committed to working together in order to overcome these challenges. TODO Group shares experiences, develops best practices, and works on common tooling.

Strategic Guidance and Expertise

Join the SPDX Project for Free

SPDX is an open standard for communicating software bill of material information, including provenance, license, security, and other related information.

SPDX specification is recognized as the international open standard for security, license compliance, and other software supply chain artifacts as ISO/IEC 5962:2021.

The screenshot displays the GitHub profile for the SPDX project. At the top, the profile name 'SPDX' is shown with a description: 'SPDX is an open standard for communicating SBOM information, including provenance, license, security, and other related information. ISO/IEC 5962:2021'. Below this, navigation tabs include Overview, Repositories (56), Projects, Packages, and People (8). The 'Pinned' section features six repositories:

- spdx-spec** (Public): The SPDX specification in Markdown and HTML formats. 174 stars, 114 forks.
- license-list-data** (Public): Various data formats for the SPDX License List including RDFa, HTML, Text, and JSON. 308 stars, 124 forks.
- tools-python** (Public): A Python library to parse, validate and create SPDX documents. 78 stars, 89 forks.
- license-list-XML** (Public): This is the repository for the master files that comprise the SPDX License List. 196 stars, 206 forks.
- tools-java** (Public): SPDX Command Line Tools using the Spdx-Java-Library. 20 stars, 15 forks.
- tools-golang** (Public): Collection of Go packages to work with SPDX files. 42 stars, 31 forks.

On the right side, there is a 'People' section with profile pictures, a 'Top languages' section showing Java, Python, JavaScript, Go, and HTML, and a 'Most used topics' section with tags for spdx, license-management, licenses, licensing, and sbom.

LINUX Kernel

For those members new to contributing to the Linux kernel, be assigned a Technical Advisory Board Kernel Mentor to coach your lead developer via email on how to integrate into the Linux kernel community.

“

The Linux Foundation understands that developers and other key contributors are core to the success of any project and are hyper focused on attracting the best to work on their open source projects.

”

Nithya Ruff, Linux Foundation Board Chair and Head of Amazon's Open Source Program Office

LFX Collaboration Portal

Access to LFX Organizational Dashboard

- Onboard your company and employees to the community
- Manage your experience through our member portal
- Gain insight into projects, submit support requests, access research, and secure member benefits
- Track employee code contributions, event participation, and training experiences

Overview of Corporate Contributions

- View your organization's open source code contributions and filter by project
- Track which events your employees attend and who was selected as a speaker representing your brand
- Monitor which training & certifications employees have completed

Host Open Source Projects and Build Ecosystems at the LF

Foundation as a Service Support

The LF provides a back-office infrastructure for projects and initiatives so they can focus on delivering value for their community.

OPERATIONAL INFRASTRUCTURE AND SUPPORT

- Access to and support on the infrastructure operated by The Linux Foundation, including Salesforce, ADP, NetSuite, Bill.com, and Expensify to manage finances as well as membership and business development information
- Domain management, trademark management

FINANCE, ACCOUNTING AND HUMAN RESOURCES

- Profit and loss, balance sheet, and cash flow management
- Treasury
- Budgeting and quarterly forecasting
- Monthly financial reporting to the Project Budget and Finance Committee and consultation with The Linux Foundation's finance team
- Payroll and benefits access and administration for project staff members
- Legal and tax compliance
- Accounts receivable and accounts payable management, including follow up with project members as needed regarding payment and management of pass-through expenses for third parties such as international public relations partners

BUSINESS LEADERSHIP AND SHARED SERVICES

- Access to and support from The Linux Foundation management team regarding industry matters and governance issues such as the IP policy

Your Membership Supports

Your Membership Supports

- Linux Foundation organizations such as LetsEncrypt.org, Kernel.org, overall development of the Linux kernel, and salaries for full-time fellows such as Linus Torvalds, Greg Kroah-Hartman, and Shuah Khan.
- Open source security initiatives and funds critical security research, providing developers access to security tooling, free secure coding education, security audits, and facilitating an industry response to security challenges.
- Travel and mentorship funding to help train and engage future contributors to open source communities.
- Essential IP protection for open source, including our support for the Unified Patents open source zone that benefits all users and vendors using open source.
- Legal work to improve the quality (licensing, export controls, trademark programs, privacy programs, etc.) of our upstream projects that you incorporate into your products and solutions.
- Creation of best practices materials covering each stage of your open source journey. Materials include foundational value proposition materials, setting up and running an open source program office, compliance workflows, tooling, contribution practices, templates, and enterprise management practices.
- Educating developers on good open source practice.
- Operations spanning the United States, European Union, United Kingdom, Switzerland, China, Australia, and Japan.
- Research on open source, including our partnership with the Laboratory for Innovation Science at Harvard University on security and open source topics.
- Legal structures for projects to be created under a neutral governance model.
- Training and certification course creation and development, supporting millions of developers worldwide.
- Diversity and inclusion programs, allowing us to offer registration scholarships to LF events, mentorship programs, diversity & socioeconomic need-based travel funding (not limited to LF events).
- Onsite programs at LF events supporting diversity & inclusion efforts that your membership supports, including free childcare, onsite nursing room/milk storage, onsite prayer rooms, pronoun and preferred communication badge stickers, complimentary non-alcoholic beverages at evening events, diversity social events, complimentary kids day coding workshop, conference session videos freely available online, and other initiatives.

Your Membership Supports

Call for Code with The Linux Foundation: a worldwide, multi-year initiative inspiring developers to solve pressing problems with sustainable solutions.

- 500,000+ participants in Call for Code since its launch in 2018
- 180 nations represented in the Call for Code community
- 15,000 applications built for disaster resiliency, racial justice, and climate change mitigation
- 14 official open source projects hosted by The Linux Foundation
- 70+ GitHub repositories.

Linux Foundation Membership Tiers

Silver Membership

Events Benefits:

- One invite to our member-exclusive Linux Foundation Member Summit, which fosters collaboration, innovation, and partnerships among the leading projects and organizations working to drive digital transformation with open source technologies.
- Employees at your organization receive a 20% registration discount to eligible Linux Foundation events.
- A 5% discount on Linux Foundation Event sponsorship (7% discount on multi-event sponsorships). Sponsorships offer a valuable way to reach the community of open source developers, engineers, C-level executives, and more.

Training Benefits

- Ten coupon codes good for any eLearning, certification exam, or eLearning/exam bundle. Additional terms apply.

Legal Benefits

- Your legal counsel's ability to participate in bi-monthly legal calls.
- One invite for your in-house counsel to LF Legal Summit, which helps connect your counsel to their peers at other member companies and advance your organization's open source licensing, compliance, and best practices.

Marketing Benefits

- Your company logo on the LF website.
- Post one technical article about an open source project you care about to Linux.com, which has over 1 million unique visitors per month.
- Have your company's events featured on our events.linuxfoundation.org community events calendar: <https://events.linuxfoundation.org/about/community/>

Silver Membership Fee Scale based on consolidated employees *

5,000 employees & above: **\$20,000**
Between 500 and 4,999: **\$15,000**
Between 100 and 499: **\$10,000**
Between 1 and 99: **\$5,000**

* Consolidated employees include all employees of the related companies, including any direct and indirect parent companies, and all sister, and subsidiary entities, excluding third party contractors.

Gold Membership

All of the Silver membership benefits plus...

A potential seat on the Board of Directors — nominate someone for a Gold Board seat on the LF Board or participate by voting in the next representative for the Gold (up to 3 for the Gold member class)

Events Benefits:

- Four invites to our member-exclusive Linux Foundation Member Summit, which fosters collaboration, innovation, and partnerships among the leading projects and organizations working to drive digital transformation with open source technologies.
- Employees at your organization receive a 20% registration discount to eligible Linux Foundation events.
- A 5% discount on Linux Foundation Event sponsorship (7% discount on multi-event sponsorships). Sponsorships offer a valuable way to reach the community of open source developers, engineers, C-level executives, and more.
